

# Rexnord Magnetflex® Combi-X Corner tracks

New Generation Magnetic Corner tracks  
from the inventors of the legendary Magnetflex® system

FlatTop Europe

**REXNORD**

# Rexnord Magnetflex® Combi-X Corner tracks

## From the inventors of the Magnetflex® Combi Curves

The Rexnord® Magnetflex® corner track system, introduced in 1979, has become the worldwide standard in the beverage industry. The great advantages of this system have made it the choice

of the world leading OEM's and End Users. It is a Combi system for both plastic and steel chains. Magnets underneath the track hold the chain down in a reliable way.

## ULF Ultra Low Friction Guides

ULF (Ultra Low Friction) integrated wearstrips for minimum friction and long wear life. RAM extruded 6 million "density" UHMWPE combined with special lubricants results in lower friction and longer guide wear life, which means lower maintenance cost.

## New Generation Hybrid Construction

Patented combination of standard resin base material combined with high performance ULF (Ultra Low Friction) guiding strips makes optimum use of different materials. Guiding strips are permanently fixed to the basepart.

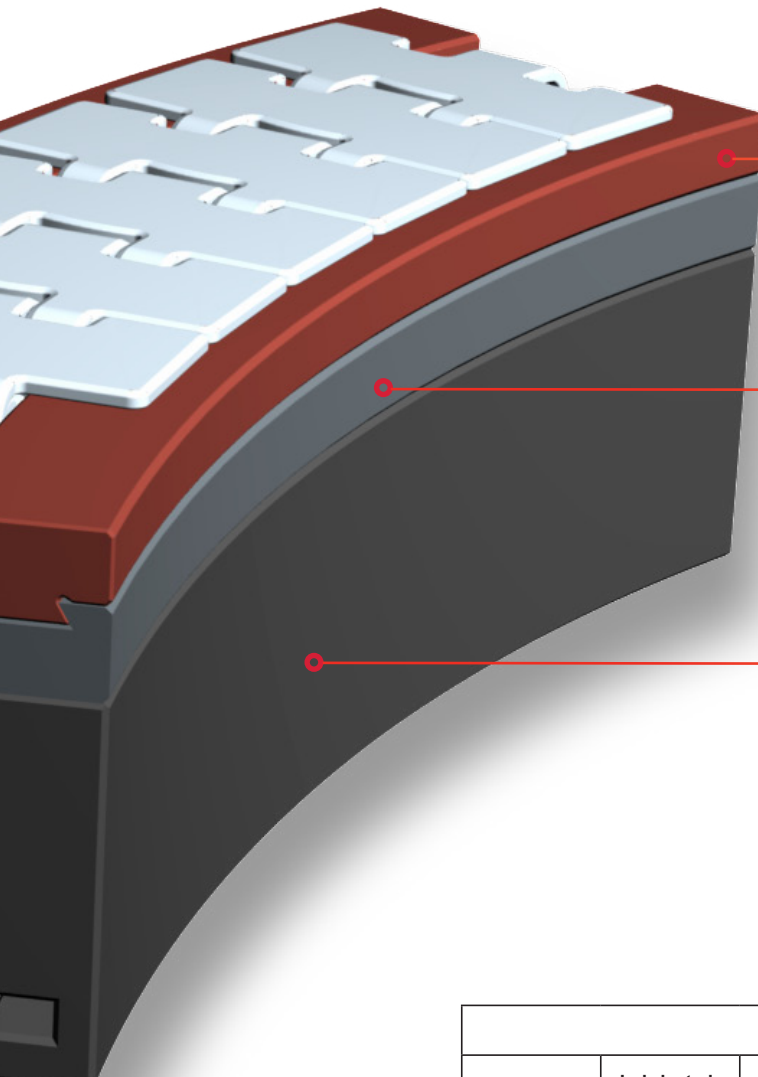

## Classic Magnet Package

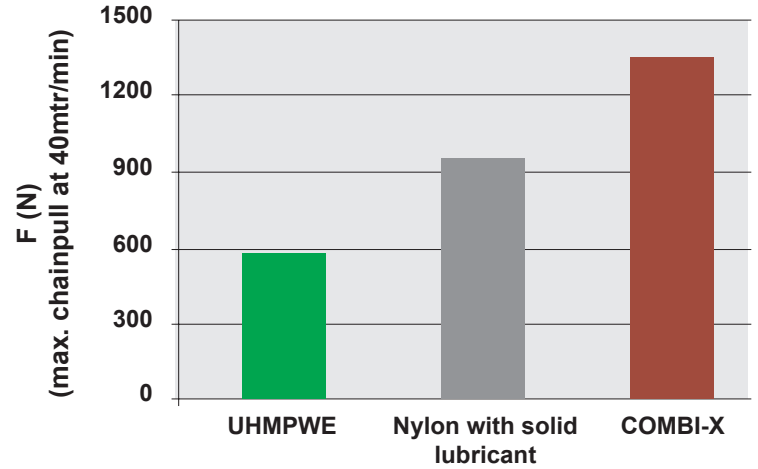

The Combi-X Magnetflex® corner are equipped with the proved classic Rexnord Magnetic package, which consists of 2 strong Magnets combined with a Stainless Steel plate to ensure optimum force to hold the chain down.

e

## PV-Limit

## High PV-limit

The Magnetflex® **Combi-X** has improved PV-properties with respect to the original Rexnord Nylatron curve material. This means the curves can be applied in high speed (dry running) applications.

## Suitable for many applications

The Magnetflex® **Combi-X** curves can be applied in dry run & lubricated conveyors. The corner tracks can be used in combination with Metal TableTop, Plastic TableTop as well as 1050-1060-1055 chain belts.

## Machined Resin Basepart

The corner track basepart is CNC machined from sheet, made out of chemical resistant polymer, also characterized by high stiffness and good noise absorbing property. The smooth accurate surface finishing allows the easy cleanability too.

## Product execution & Interchangeability

The new **Combi-X** Magnetflex® Corner tracks are fully interchangeable with existing Magnetflex® corner tracks.
